## Plant model removal

You can now remove an existing plant model in the Analytics section using the Delete  button.

### Deleting a plant model

The screenshot shows the Analytics section of the application. At the top, there is a "New deployment" button. Below it is a table with the following columns: ID, Model, Plant, Status, and Actions. The table contains three rows of data, each with a delete button (trash icon) in the Actions column.

## Precalculations Corrected for Daylight Savings Time

We corrected the algorithm for precalculation, to ensure that data is correctly calculated after clocks are set forward by one hour for spring daylight saving time (DST). This issue primarily affected data and active alarms.
